

The end of packaging line experts

Our commitment

- > Flexibility as a tool for industrial competitiveness
- > Reduced time to market
- > Optimised total cost of ownership
- > Performance guarantee

Case packers

- > Vertical
- > Side push
- > Robotic

Palletizers

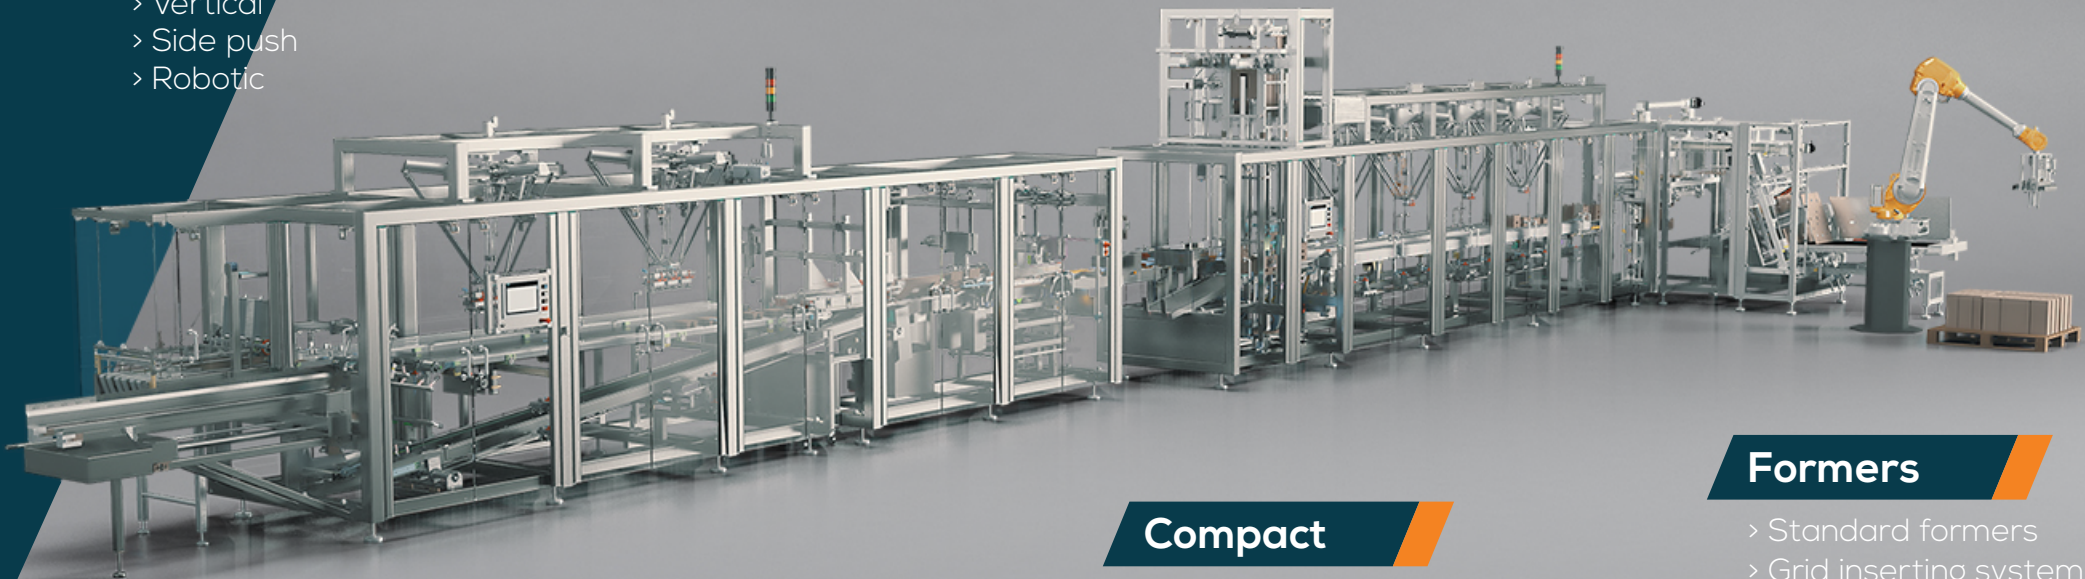

- > Mechanical, by layer
- > Robotized cells

Peripherals

- > Conveyors
- > Dividers
- > Mergers
- > Stackers
- > Elevators

Integration

- > Coding
- > Gadgets application
- > Detection
- > Check weighing
- > Labelling

Overwrappers

- > Bottom glueing
- > Top glueing
- > Robotic

Cartoners

- > Vertical
- > Horizontal

Compact

- > Combined functions 3 in 1 and 4 in 1
overwrapping
case forming
batch preparation
case packing

Formers

- > Standard formers
- > Grid inserting systems
- > Cover placing units
- > Closing devices

OUR SERVICES

TECMA ARIES manages your turnkey projects, from defining your packaging needs to ramping up your packaging lines.

PACKAGING DESIGN

Our specialists support you in achieving your packaging objectives by ensuring package consistency with exceptional efficiencies and maximum package appeal.

TECHNICAL EXPERTISE

Our experienced engineering team develops mechanical design, automation and robotic solutions that provide innovative and efficient configurations. Each project is scalable to support your needs in terms of performance, operator ergonomics and environment protection.

PROJECT MANAGEMENT

Project engineers meet rigorous "cost / quality / timeline / communication" goals.

MODERN INDUSTRIAL FACILITIES

With two production sites totalling 15,000 sqm (160,000 sqft), we perform full line assemblies, carry out effective technical acceptance tests and qualify equipment before shipping.

RELATED SERVICES

Remote technical assistance, spare parts, machinery revampings and overhauls, maintenance contracts and on-going training.

WHO ARE WE ?

TECMA ARIES is an industry leader in end of packaging lines. Both TECMA Pack and ARIES Packaging are well established brands and our merger brings together the best of our know-how to serve and exceed your packaging needs:

- › Mechanization of corrugate
- › Overwrapping and cartoning
- › Case-packing
- › Palletizing
- › Peripherals
- › Integration

OUR VALUES

Tecma Aries is driven by our values, technical excellence and commitment to industry, in order to constantly improve production line performance.

A GLOBAL PRESENCE

The trust of major international customers since 1990 is explained by the added value created in the proposed solutions and by a business philosophy focused entirely on exceeding client expectations.

Our teams are customer focused and we strive to support your operation anywhere in the world.

We also rely on a network of local partners, chosen for their ability to provide relevant advice in defining projects and their ability to offer responsive technical support.
